## BACKGROUND INFORMATION OF MARIDI HSI

Maridi Health Sciences Institute (Formerly, National Health Training Institute) is a tertiary health training institution based in Maridi, South Sudan. It is a national institute with 25 years of experience training Clinical officers, Midwives and Public health officers with support from Amref Health Africa. To date Maridi HSI has graduated over 1,000 Health Professionals most of whom are employed in Health care system of South Sudan.

*MHSI Administration Block*

## VISION

MHSI vision is to be a leading centre of excellence in training, research and community service in Sub Sahara Africa.

## MISSION

MHSI mission is to train competent, committed professionals and empower communities in Sub Sahara Africa.

## Core philosophy

Maridi HSI Programs believe that all people and communities in Sub Sahara Africa have capacities to undertake individual, collective, and collaborative actions to solve their own problems. As partners we harness and build on these capacities.

## Core values

The core values of Maridi HSI Programs are:

1. Promoting unity in diversity
2. Promoting equity in health and development
3. Upholding the dignity of all people and communities
4. Targeting the vulnerable people through their own efforts
5. Being pro-women and pro-poor.
6. Promoting evidence based management of health care and development
7. Building on locally available capacities and resources.
8. Promoting transparency and accountability.

The Institute is now open for private admissions. Applications are invited for the following three (3) years Diploma Courses;

1. Diploma In Clinical Medicine and Public Health
2. Diploma in Public Health.
3. Diploma in Midwifery

Legible applicants should be holders of Senior 3 South Sudan or Senior 4 East Africa with good passes in; English, Mathematics, Biology, Chemistry and Physics or equivalent;
